

The MEDA Executive Committee will move for approval of a minor change to Article V of the MEDA ByLaws for consideration by the MEDA membership at its January 14, 2021 Business Meeting. The purpose of the change is to clarify that officer terms commence at the MEDA Annual Meeting which is typically held in April, not the Annual Conference which will not occur until September, 2021. This necessary revision became apparent to the MEDA executive committee as a result of the COVID pandemic which has caused the MEDA Annual meeting and the Annual Conference to occur at different times of the year as allowed. Bylaws changes must be approved by $\frac{3}{4}$ of the MEDA members present when the motion is made.

Article V. "The Officers shall be elected annually by the members at its annual meeting. The Officers may be elected to two consecutive - one (1) year terms commencing per election at the Annual Meeting ~~Conference~~, and shall serve until their successors are elected."
